Join the **Regional Centers for Workforce Transformation** for this free workshop! We are winding down and coming to the end of our "Building the Skills" series.

In June, we will be discussing the Core Competency; "Being Active and Productive in Society." Community integrations, and inclusion has taken center stage when it comes to conversations surrounding the people we support. Join us as we explore these concepts and more. As always, this workshop is intended for frontline supervisors (*those who directly supervise Direct Support Professionals*) but is open to everyone who wishes to be a part of the journey! We look forward to seeing you all as we explore the core of every relationship in the lives of people being supported.
